**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I was using DSL before & now using broadband is like comparing night & day. There is so much advantages to using broadband. Besides this, dealing with a local provider is much better than dealing with a huge company that is operating worldwide. As a small business owner, the need for a more competitive price of telephone & internet service provider is critical to stay in business. Everybody knows that more competition generally result in lower price & better service.

I have not been satisfied at all in dealing with A T & T. I really try to avoid dealing with big companies because of the red tape. So please stop A T & T and other big companies from stumping the small competitors.
